As your travel advisor, we highly recommend Travel insurance. It is an excellent way to protect your travel investment as well as provide coverage for any mishaps or medical emergencies while traveling.

### **Some things to consider when making your decision:**

- Can you afford a medical evacuation, which can cost tens of thousands of dollars, if an emergency occurred?
- Does your medical insurance cover you when traveling abroad?
- Who will help you make arrangements if you need to interrupt your trip for a family emergency back home?
- If your identification and/or luggage is stolen, lost, or damaged, how will you get assistance?
- Are you prepared to lose 100% of the funds paid for your vacation, if you have to cancel for a mishap or family emergency.

Please indicate your decision below and return this form to your travel agent for our records.

Yes, I would like to protect my trip. Please contact me with a quote on my vacation.

No, I do not wish to purchase trip protection. I acknowledge that I have been offered coverage and chosen to decline. Please contact us if you change your mind before you travel.
